

Swim Test Requirements

- Certain areas of TOSA Pool are restricted to help ensure the safety of our guests.
- To gain access to these areas, swimmers must demonstrate their swimming ability to our lifeguards.
- Swim tests can be requested at anytime and are given by the TOSA Pool guard crew stationed next to the climbing wall, adjacent to the diving well section of the pool.

Swim Test requirements

- The swimmer must be able to swim approximately 30 feet out AND back performing the front crawl, getting their whole arm out of the water with each stroke. Note: the entire swim test is conducted in the deep well section of the pool.
- A swimmer may fail the swim test if they do not consistently get their arms out of the water, do not swim the proper length, cannot swim in a straight line (they don't know what direction they are swimming), cannot complete the test in a timely manner, or has not shown sufficient skill to enter deep water.
- The swim test must be performed without the aid of goggles, a life-vest, or another person.
- Swim test required for patrons and guests under age 21 to use the diving boards, Aquaclimb climbing wall with 48" minimum height, and Aflex inflatable obstacle course with 42" minimum height.
